Holiday Special Emergency Kit

An excellent Christmas Present for any horse-person on your gift list.

Every horse-person's nightmare is to be caught in the midst of a critical emergency and not have on hand what they need to treat the horse until the Vet can get there, or until they can get the horse to a Vet. This is especially true if you are out riding miles away from help.

We are offering a Holiday Special EMERGENCY KIT complete with the kinds of items that you have to get from your Veterinarian like Bute, Banamine, antibiotics, etc. over \$200 worth of medications and supplies for \$150.

Medicine Kit - Over \$200 worth of supplies for \$150
